SUMMARY

Product Manager with 6+ years of combined experience, including 3+ years of product ownership across SaaS and platform products. Proven track record of delivering AI-driven features, 0-to-1 mobile app launches, and API-driven automation through cross-functional collaboration. Leveraging an MBA and CFA Level I, I bridge financial acumen with technical execution to drive scalable product impact through system-level thinking, data-driven experimentation, and rapid iteration.

EXPERIENCE

EPSON AMERICA, INC.

Los Alamitos, CA

Associate Product Manager II

Aug 2024 - Present

- Led API-driven data integration across external and internal systems, establishing data mapping logic and automating reporting pipelines; reduced manual workload by ~60% and drove an 8% retention lift via targeted lifecycle outreach.
- Designed a seamless registration experience by integrating cross-system APIs and embedding real-time registration into pairing flows; reduced friction, driving an 11% lift in registration and enabling downstream service monetization.
- Restructured monetization by launching a 3-tier pricing model informed by price elasticity and profitability; drove 9% revenue growth and optimized unit economics by balancing upfront conversion with higher-margin deferred purchases.
- Championed end-to-end rollout of cross-sell features, defining KPIs and running A/B tests to optimize purchase decision flows; drove incremental revenue through a 4% conversion lift and consistent attach-rate growth.
